Hi, Dear Karl and Ethel,

Yours very very deeply appreciated,
and to think of you in Bermudez again
brings joy. Many memories and a real
kick. So glad you two could go again
and the changes which time has wrought
must amaze you. I've never been back
but may get there yet. Darrell's son-in-law,
Harvey, goes & I hear from him, but am
especially glad to hear from you 'Cause
there are no friends after all like
Antiques. What of Busch? All my
family gone to rest except one brother,
Le Baron.

Finally I overcame my anemic
condition and am in fine health at
last and going strong, but do not golf
nor tennis. Started here here 16 yrs
ago on nothing - now have a nice
home and a splendid growing spring
water business, 90% profit. A 42
year old war veteran nephew

lives and works with me, Eddie, Gus' boys, but just lately a beautiful South Carolina widow has come into the picture, and I know not what the future holds - but I might yet.

Two years ago a friend spent \$750. to have scenario "Queen of Peace" put into film shooting format by H. W. Ballenger of Hollywood, whom you must know, and also 100 pages added to it with more characters & plot. Ballenger says he submitted it to Paramount, M.G.M. & Universal but all turned it down. Are the movies really going out in favor of T.V.?

I have just secured a copyright & Registration with Writers Guild of a dialogue for T.V. & radio entitled, "The Unborn Twins, Romulus & Elizabeth discuss their World Inside & Outside". I spent all summer writing it with another teacher, and really it's a riot if there ever was one. Am just getting ready to put it on the market. Write me again as you promised. What of your daughter Babs?

My utmost good wishes to you both.

A. Holt.
