Mr. Karl Struss,
1343 N. Orange Grove Ave.,
Hollywood, Cal.

Dear Mr. Struss:-

For the Pictorial Photographers of America, I congratulate you on having one of your prints chosen for reproduction in Pictorial Photography in America, Volume IV, 1926 edition. Over 1300 prints were submitted, and after most painstaking consideration the jury has selected seventy-six for reproduction.

We believe that the book this year will contain the most beautiful reproductions of photographic work since the publication many years ago of Camera Work. The prints will be reproduced by the collotype process, a strictly photographic process which preserves what is lost in the half tone process and more nearly approaches photogravure than any other method of reproduction. The book will be somewhat over ten by thirteen inches in size and contain many reproductions larger than in our former edition or in Photograms, the majority the actual size of the original prints.

Two editions will be published. Fifteen hundred copies of the regular edition will be issued to sell at three dollars per copy. In addition to these there will be a limited edition of two hundred and fifty numbered copies which will sell at ten dollars per copy. This limited edition will be printed on Reeves' hand-made paper, with deckle edges and bound in Italian hand-made covers. It will be somewhat larger in size than the regular edition, the size of the folded, uncut, hand-made sheet. The frontispiece in the limited edition will be a hand printed reproduction in collotype on Japanese tissue. There will be no advertising matter in either edition.

We think it only fair to offer the chance to subscribe for copies of this limited edition first to those who

are contributors to the book. As a contributor you are entitled to a copy of the regular edition without charge, and to additional copies at $2.50 each. If you prefer to have a copy of the limited edition, you may send a check at once for $7.50 and it will be sent to you as soon as published in the Fall in place of the regular edition. If you wish copies of each edition, send a check for $10. for the limited edition. Please do not think that the P.P.A. is trying to raise funds for its own use by the sale of these books. It will be necessary for us to sell all copies of both editions to cover the expense of publication. For this reason any extra copies which you can sell will be of great help to us and make the chances of issuing future editions much more certain.

We believe that in line with what has happened in the case of other limited editions, there will be an enhancement in the value of the 250 limited copies and that those who purchase them will have both a very beautiful book and a worth while investment.

Will you kindly return the enclosed card at once? We expect to make a public offering of this limited edition soon after the first of September and do not want to have you miss this opportunity to secure one yourself.

Sincerely yours,

PICTORIAL PHOTOGRAPHERS OF AMERICA,

Jerry D. Drew cw
