Dedicate: to the memory of René d'Harnoncourt
wording ~~and~~ ~~Harrington~~, ~~La Farge~~, Charles Collier
having given both Indians and the outside
world means of approach to exchange
of ideas.

Among those, to whom guidance is a very reserved
and gentle thing, I wish to thank R. M. with
whom I made my first Indian photographs.
While we were searching for means to give
Nav. people some identification with the first
printed ~~Son~~ Nav. alphabet, we visited the
ancient ruins, assisted by Ned Bia p. — Sam
Day, recording pictographic wall images at
Canyon del Muerto

Charles Collier recognized in the photographs
a resource. He used my training in
education and the applied arts, ~~the artistic~~
~~springboard to an~~ facilitate recording evidence
of the last disappearing art forms, as well as
progress in adapting to the needs of modern
education, which was encompassing a multi-
lingual publication program
