Dear Helen Post:

The book will cover all aspects of the college though the arts will be emphasized. The introductory section of the book will cover the educational philosophy of the college. For that section I am interested in photographs of college life, buildings, people, etc.

The main body of the book will deal with the programs in the visual arts, drama, dance, music and literature. I am interested in photographs of faculty, classes, art work and student studies, drama performances, etc.

So you can see that the range is very broad. One thing that might be helpful: just now I need visual images to know what is available in writing the book. I do not have to have actual photographs just now. Very good xeroxes of the photographs will do. If you cannot get to the negatives, this might be a temporary solution.

When you have the photographs and are ready to make some decision as to how to handle it, please call me collect and we can weigh the possibilities.

Meanwhile I hope that your arthritis is better and that your housing situation is being resolved.

We have a touch of autumn here now and it has brought some blessed relief.

Baltimore, Maryland 21204

Dear Helen Frank:

The book will cover all aspects of the college thesis and will be entitled, "The Introductory Section of the Book will cover the emphasized, "The Introductory section of the book will cover the elaborations of philosophy of the college." For that section I am interested in photographs of college life, buildings, people, etc.

The main body of the book will deal with the process in the writing of a thesis, music and literature. I am interested in photographs of classes, art work and student activities, drama, dance, etc.

Do you can see that the range is very broad. One might be available in helpful. Just now I need visual images to know what is available in making the book. I do not have to have actual photographs just now. Very good xerox of the photographs will do. If you cannot get to the negatives, this might be a temporary solution.

When you have the photographs and are ready to make some decisions as to how to handle it, please call me collect and we can work the possibilities.

Meanwhile I hope that your arbitrate is better and that your housing situation is being resolved.

We have a room at another here now and it has brought some pleasant relief.
