Dear Laura

Of course I know I should
have written you long before this to
thank you for all the trouble you
took in getting up this Memorial
Edition of Jack's work. But my
delay doesn't mean that I don't

appreciate to the full all the
time and energy you put in,
for I know what a lot of
detail goes to such things.
They must have looked very
lovely: I had a dear letter
from Regine about them. More
and more do I appreciate how
beautiful his work was. & Regine
speaks especially of the feeling

of peace which pervades it.

I am still feeling very miserably but day by day can see a little improvement and hope to be able in a few weeks to feel quite differently. Unless Mabel would rather come here than I make my postponed visit to the Springs, then I shall see you before you go abroad. But until Dr. Gallway's report let me I can make no plans.

Again thanking you most heartily for doing this for Fred and Mabel & me

Affectionately Yours

Edw. Markley
