I was sorry yesterday - did you
notice it? I think so - has
because I feel - & much, & also
because I feel - what - you
were trying to express -
My dear love.

This was all of it!

This sheet was all I received. What happened to the rest? Please write me, when you can, what you said. I think I know about what it was but I should very dearly love to know all. Please send this back to me, it is a dear treasure and I wouldn't loose it for the world!
