

Sunday

Dearest Sam:-

I am thanking you by
this post a copy of
my magazine - I ~~thought~~ ^{have} a
vague fear that I sent
it before, did I?

I have to write - very briefly,
because to-day I am
finishing up ~~at~~ the
left-over work about the
Cigarette which takes place
on Wednesday.

I am crazy about the
cottage idea. Any little
details you tell me about
it - will help to keep me
glide these next two months.
I am sure to talk home
but - I suppose I
can pay \$60.00 a month.

I only planned to pay \$50.00
 a month — but the other
 will be alright. I only
 expected something very
 simple for the ^{of course}
 21-mile cost is \$100.00
 each to get out & Col. &
 return. So with all the
 housekeeping expenses & the
 main that it will be
 quite an expensive summer
 for us — but it
 will be worth it. I
 address a few questions
 for you to answer — do so,
 & I will reply by
 return-mail. But I feel
 pretty sure that we
 will be able to do it.

I shall thank you for the
 note I have from you.

Frankly never in - after
on ~~the~~ position, for
goals, his ^{any} ^{way} in
the ' ^{series} ^{series} and
leaving, a chore ^{training}
away on his dinner? If
you must be quite
honest about them. He
hates to be idle these
months and besides, his
un-^{project} ^{man} possible
I think he, ^{where} [!]
come flying!

Oh! Lamden, I am so
excited - & hope everything
will turn out all right. I

I am to Mother & so many
to you & all my gratitude
Yours loving A.S.

Is there any silver in the
house? Or any tin?
Could we be bothered
with transporting silver
& tin half way across
the Continent.

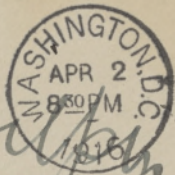

Is there any way I could
see a little photograph
of the house? It isn't
really necessary as I
would be satisfied with
your decision — But it
would suggest such
happy anticipations for these
next two busy months —

How about the main question?
Could I take my meals out
until I could find one?
I could only have one
meal a week. How about
how much money I have
to pay for?

Is the kitchen equipment fully?

Do you suppose I could
have it for $2\frac{1}{2}$ or 3 months?
He would rather come June 1,
or June 15 - but he later.
