Wednesday
Dearest Anna:-

You must stop doing
things for me! I have
overwhelmed, literally, when
two effusive notes came.
I have been, then, sitting on
my desk. You are too
kindness to me, & too generous.
I enjoyed them, and love
them - and talked to them
so in they be human beings

Dear I do thank you so
much! This summer I hope I
will be able to do something
for you.

Last week I have to be for
a few days. I enjoyed the
change & I think the rest
benefitted me. I bought you
a little Easter gift - but it
will be belated, as I
have - had time to pack
it up yet! I am
back I have so many letters

to do + I have lessons to make up, ^{so} I have - had time
to tie up the package yet!
But if - will come. It
is late now + I am in bed,
but I know I must get
this letter off to you, at once.
Now to business - where the cottage?
I called on my physician, &
he said that what a tuberculosis
hip has not so bad as
a tuberculosis lung, but that
the cottage ought to be

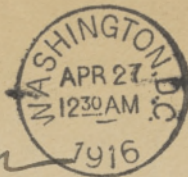

4
thoroughly furnished. Is it
you think he live like the
cottage, go ahead and take
it for the. He live like
it - for three months - like - from
June 3, to June 15. I will
let you know exactly the date
later. Shall I bring extra
blankets and linen? Of course
I have to minimize the luggage
as much as possible. Just
look around the house &
decide if there are any little

5
Thank you for the letter & to
the I suppose is so all
cottage here here the better.
I suppose there is no chance
of Mrs. Ballou changing her
mind is there? Is that
relative I wonder to Mrs.
Sidney Ballou there whom
I know very well.
How about the mind?
And does she do the laundry?
I am so happy about your
writing lessons. I can see

how new vistas are being
opened up to you. I think
I can help you a little to
take his talk together about
ethical principles in general.
As soon as the cottage question
is decided I will ship a
box of books out there which
will be the summer.

I will stop now because I
am very tired. I just get
rest & repose. Love to both.
My deep affection & gratitude to you.
