My dear Emma + Anna.

Laura's letter

received a few days ago and from
Emma yesterday. I have a hesitating
feeling writing to Anna as Frank
requested me not to do so. It seems
strange + unnatural, therefore I abide
by my promise. To a score of friends
girl and woman friends I write,
as Anna received and wrote to

her new friends. Neither of us
saw or caught Oxy, but
spirit. This may or may not
be understood. It is a Superior
Haw, above many people.

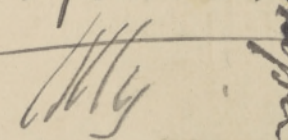

Anne has four pictures, unusually
superior, taken, ~~two~~ with Babies; two with
Roger VIII + two with little Anne, her sister
Lillian Child. I should like to have
Lamb develop them + enlarge to $\frac{1}{2}$ after the
size, any expense to be defrayed by
myself. If you, Emma, care

to have her do this, I should
be happy - If you think
best not I will
understand.

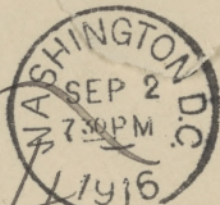

My friends have fathered
about me - Men &
Women, their ideal
affiliation, their making

The broods + bills
would help me

the Brotherhood.

To Saml Jones. I wear
a mask, & others, & you
do not understand that because
the position nature that is
mine as the Artist, there
is the virile, active
"doing" Controlled Man.
With affection 

The artist must be a man
who is a man.
