My dear Anna.

My last letter
said. I am now that I
determined to go to New
York - very happy about
it. I have just written
to one of my Beloveds'
dearest friends Grandma
Putnam + told her to
write to me. It will be
wonderful if we
two can get together.
She is very fitted +
does work in Marble
+ bronze.

She did both the
best of Florence Robertson
& Marcelle Baur. &
is also the pianist of
the Rubel trio piano
& strings. a pupil of Anna's
& adored her.

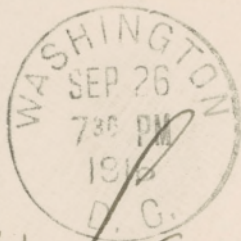

I want her to take
you right into her
life & art interests
She is the daughter
of Herbert Putnam
Library of Congress
an important
man here

Socially + professionally.
We will write to you —
I am sure.

About the photographs:
Anson knows my
sentiment & how far he
will press I think
you just better let me
ask you — do this.

When you come in you
will see Anne's Studio - It is
as the last it, the desk always
covered with flowers.

I am writing at my own
desk - The men now are in
the dining room (dinner)
predominantly with the "color
box" for our music + color
at the next moment. I am
active + working kind thoughts
to father + mother always sincerely
