

You are to be in Europe this summer, please come to my wedding, and be a bridesmaid, you will see Paderewski, who is an intimate friend - and you will make me very happy indeed. Is there any chance?

We shall live in Paris most of the time, and come to America every year, for Maurice's position leaves him a good deal of liberty.

Maurice has to lecture Geneva for the League of Nations in September, so that I think we shall put off crossing until next spring and spend the summer in Colorado.

Dear Anna, love you

Dearest Anna,

I am writing to tell that I am engaged to be married! The man is Maurice Muret, the editor of the Gazette de Lausanne (you must have heard of it during the war). He is a very distinguished man, and I am immensely proud of him. I will send you some of his books on literary subjects, for I think you will enjoy them.

We are going to be married towards the beginning of August. If, by any lucky chance

Will after be in Paris
so that's way see you.

Don't forget we - we
have had such happy
times together

Ever your loving
Charlotte
