My dear Girl.

I have your wonderful
print - and it fills me with
delight. I think it is the
finest thing in Technical,
photographic landscape that
I have ever seen and it
is big in conception. I thank
you so much. I have the Lincolns
ready to take to the framers but
have been ill for several days
with DOMINANT poisoning. I
hope to be up in a few days
and will attend to them as soon
as I am able.

Sincerely yours

Gertrude Käsebier.
