My dear Miss Gilpin:-

I regret so much
that the cuts you sent will
be done only on magazine
papers. ^{we} have one society
paper, ^(weekly) however which uses
the Calandered paper and
the editor was delighted to
get them and promised to
use two. He failed to do so
and phoned excuses and
said he would the next

However if the importance of the
subject should overcome the
literary disabilities and they should
wish illustrations, may I send the
three I have with instructions to
send them on to you, or have
you others you must prefer to
send?

I should like to tell you
kind very much. I have enjoyed
your pictures. I am sorry to have
been forced to write such short

week which he did not do.
I am awaiting developments
this week.

Meantime Mrs. Smith
has written to ask if I would
not like to write a review
for Camera Craft or perhaps
one of the other magazines. As
she wanted it in very soon
I am sending an article
today with grave doubts
as to its acceptance from
a novice in reviewing.
