Dear Miss Forster:

The Secretary of the Print Committee of the Camera Club, who has been off photographing in the wilds, let me know early in the week that the club could not take Laura's exhibition on account of a summer exhibit by club members.

Yesterday I had an appointment with Mr. J. N. Laurvik, head of the Palace of Fine Arts, San Francisco, and after seeing the prints which Laura had given me at various times he decided to hang her pictures for six weeks during July and August. I have written to Mr. Lemos to that effect.

I cannot yet tell you anything definite about Stockton. I told Mr. Laurvik that the prints were probably going to Sacramento from here and he asked "To the Library?" which might be worth trying. I think a note to him about Laura's professional experience would be of interest to him, as I could not answer all of his questions. He probably wants to write up a newspaper notice.

Hoping that this is satisfactory to you and that September first is not too long a time to hold the prints here, I am

Very cordially yours,

Howard H. Shinn
