My dear Laura.

I hope they are thrilling, the photographic records of your summer trip. I never saw B.P. looking so well. She came in on her first day home and I have not seen her since. Of course with that awful rent she pays she has to work like a slave. It was a joy to hear about the adventures and I am sure you will both benefit enormously therefrom. I shall be all eyes and ears for results. There is a show on at the P.H. room Art Center. I have not seen it but hope to. One of my daughters is living with me now and it is a great joy. In many ways. I feel better but my legs do not function very well and I do not get about much. Are you going to vote and is it for Coolidge? I think it would

be an awful calamity if that
man Bryan got in. His face is
the limit. Did you ever do any
thing with your photogravure?

My daughter is doing some photography
and we find the materials very expensive.

I suppose you will be sending B. P. some
some prints and she will let me see
them. Dont work too hard; remember
your strength has limitations.

Love and best wishes.

Gertrude Käsebier.
