

123 Waverly Place.

New York, N.Y. 24th 1924.

My dear Laura.

Thank you for the Calendar. It is exquisite and I hope you do well with it. Best of all it is good for an indefinite period, with a change of dates.

I feel sure it will lead to other practical ideas for the use of your beautiful work. Of course the spirit of the Brain is my own true love.

Thank you too for the Royal book. It is informing and interesting. I have only seen Brenda twice. She is busy with her own work and other people's worries.

She has not begun to look tired out and its no use to scold her.

I have been very sick again.
Had Brenda's Dr. Morgan.

Am going to a hospital to be
x-rayed and have all the fixins.
so I will wish you a merry
Christmas now, to make sure that
you get it. X-raying is not
~~so~~ ^{so} ~~severe~~ painful except to ones
pocketbook, and vanity.

Here's love to you. Luck to you
luck to you

Gertrude Käsebier.

I had a letter from a young fellow
named Stimer saying you had
told him to come to see me. I made
a date with him but had to call it
off because I was sick. I expect he
thinks I am a fraud, will make
another when I am better. If you happen
to be writing to him, tell him I am on the level.
