My dear Laura,

I thank you so much for the nursing book. It is very fine and it makes me feel that you are on your way to a field of your own.

I am very proud of you.

Mr. Steiner called yesterday to show me some of his work. What ripping things and I had never even seen or heard of him. I greatly enjoyed his visit and he is coming again and is going to bring some other fellows who are working in the same field. I shall like it very much.

Originality is a rare bird. I hope he gets

the recognition he deserves. He enjoyed
your book and showed me the print
you chose to exchange for one of yours.
Have not seen B.P. I guess she is too
busy. If the Lincolns dont find a
market, dont worry. It is just the same
here. But do buy the Pictorial Review for
February. It has a corking article by Albert
^{Edward} ~~Wiggam~~ ^{Wiggam} entitled "The Beauty of Lincoln.
An Appreciation". I hope you are well and
happy. I am always delighted to hear from
or of you. You are in my thoughts a
great deal. I am feeling much better.

With love

Gertie Käsner.
