My dear Laura.

Thank you for the book. I am more than delighted. You are on your way and I am proud and happy over your article. It has dignity, simplicity and charm. and none of these gold diggers. How I hate them, here can get it away from you. It is a field you have found for yourself. Here's luck to you. Maybe sometimes you wish for a good comrade or something else, we all do, but there is nothing like concentration to help to big results.

I hope you have quite recovered from your late operation. Do be careful.

I see very little of Brenda. She is extremely

busy and will be rushed until she
gets away to Florence. I have not
heard any more from the P.P.T. Do not
know if I want to. It is lovely in
New York now and hot. The crisp days
of fall will soon come.

With much love

Gertrude Käsebier.
