Dear Miss Gilpin:

I was delighted to receive your beautiful picture of Square Tower House in the Mesa Verde National Park. It is to be framed and hung with my other treasures in my little home at Forest Glen, Maryland; and it will be in good company there and much appreciated by the many friends who visit me.

I hope when you come this way again that I will have the opportunity of entertaining you at Forest Glen where you will find among my pictures some very beautiful representations of that Mesa in Colorado which is one of the most attractive to me in the Southwest.

Thanking you for your gift which is great joy to me because of the subject and the fine photographic work,

Cordially yours,

J. Walter Hewkes.
Chief.
