San Francisco, Cal.

Dear Mr. Cahn:-

My prints are being shipped to you by express to-day. I go to Denver for a week or more and so I send them a bit early. You will find twenty seven prints in the portfolio. The list in enclosed.

I trust that you will find the prints of interest to your members. If questions regarding medium arise, most of these prints are Palladium. Some Gum-Palladium. Some Platinum and the Still Life is a Hand Coated Platinum with two printings. This latter is I think the most beautiful medium we have. In addition to the beauty and permanance of platinum, it offers also the wide choice of wonderful hand-made papers, whose quality becomes a part of the print.

With best wishes to your members whom I wish I might have the pleasure of meeting in person, I am

Very truly yours,
