

January 27, 1926.

My dear Mrs. White:-

Under separate cover I am sending you the list of the plates I have here and also a set of proofs of them, as you can then identify them certainly as I do not know some of the titles. The book arrived to-day and the press will be along in due course. Thank you for all the things you have done. I am glad to have the address of the paper Co. I believe I got the last lot of Bristol that Holden & Hawley had. They shipped me out 200 sheets while I was in New York. This will last a while, but it always goes too fast.

I am glad indeed to hear of new students for you, and I hope that all will work out well.

Do let me hear about the Memorial Exhibition and how everything goes.

My best wishes to all,

Most sincerely yours,
