Dear dearest Laura.

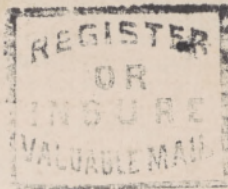

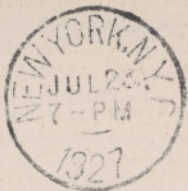

I am thrilled with your
Mesa Verde photographs.

I thank you so much for
remembering me. What a
wonderful experience. How
they express just your
own big soul. I have not
written because I knew you
were so tremendously busy
I did not want to bother
you and too because it is
very difficult for me to write
with my impaired vision

but, you are so often in
my thoughts, you and Brenda,
that you must feel me
on the air. I have had two
wonderful letters from her in
which she told me of the
progress you were making.
Lines are beginning to blur
and I have to ring off.
With all my heart and love

As always

Gertrude Käsebier.
