

June 15, 1929.

Mr. Arthur A. Fisher
Denver National Bank Building
Denver, Colorado

Dear Mr. Fisher:

The New York Engraver has re-made the two plates that I was not satisfied with and they are here and very greatly improved. We are starting to work on the plates and will have something ready to show you shortly. The bill has been received for these plates which were made in New York and as this is the time of year when I have been stocking up with a year's supply of mounts and folders and plates, I am not able to take care of this for you at the present time. May I ask you for \$50.00 on account for this job to take care of this bill? I will have the last prints of the Hughes house ready for you within a few days.

Most sincerely yours,
