Dear Sirs:

It has been several weeks since I wrote to you regarding the photographs of the State School for Deaf and Blind. I have seen Mr. Nieman several times and as the state of the building is still unfinished he has requested me to write you that he thinks it would be far wiser to wait until the building is finished to make the photographs. As it is now they are doing much work on the interior which shows through the windows.

Just as soon as satisfactory photographs can be made I will do them for you and I trust that you understand this delay.

Very truly yours,
