

October 11, 1929.

Mr. Franklin L. Fisher,
National Geographic Society,
16th and M Streets, N. W.,
Washington, D. C.

Dear Mr. Fisher:

I am sending you today a package containing thirty-nine photographs of the Mesa Verde National Park. This series has been in the making for several years and is now completed. With the exception of a very few, none of them have been reproduced.

Two years ago I had an article in "Art and Archaeology" on the play presented at the Mesa Verde by Mrs. Jesse L. Nusbaum.

You will also find in the package a copy of the little booklet I published myself on the Mesa. The sale for this has been limited entirely to Park visitors. If you would be interested in using some of these for your magazine, I am sure that I could get either Mr. or Mrs. Nusbaum to write an article for you.

Mr. Franklin L. Fisher - 2.

In regard to my own work I should be glad to refer you to Mr. Herbert Putnam of the Library of Congress. He has purchased a number of my prints for the Print Division of the Library.

Trusting that you will find things of interest to you in this series of photographs, I am

Very truly yours,

LG-B
