My dear Miss Scales:

I have your letter regarding the proofs of your niece. I shall, of course, be glad to give her another sitting when she returns to Colorado Springs. I do wish though that you would return to me these first prints, marking which one you like the best. So often there is such a difference between the proof and the finished print that it may be you will like this one when it is finished. In any event I should be pleased to finish one of this first sitting and if you do not like it you may return it.

With best wishes for the coming season, I am

Very sincerely yours,
