Dear Mr. Connell:

Since my last note to you I have found that we will be able to get the small Kennerley Regular Type Face in Denver, and we will be very glad to put it in for this booklet, if that is your wish.

I enclose, also a page from a little magazine published here which contains both the Italic Type, that I sent you last, and the Regular Face that goes with it. It is somewhat similar to the Kennerley Face and you may like it as well.

Trusting that this will enable you to reach your decision and that we may soon start on the booklet, I am

LG:MB

Very truly yours,
