Dear Miss Gilpin:

The Kodak Park Camera Club is planning a permanent exhibit composed of works of the world's best pictorialists. We have already purchased a few prints and have had a few donations.

In the very beautiful collection of prints which you allowed us to have for last October, I remember distinctly one called "Sardines" which impressed me very much. The other day when in Washington, I again saw a copy of this picture in the Congressional Library. I am authorized to ask you your price for this print.

Please accept this late acknowledgment of the very charming Christmas Card which you were thoughtful enough to send me. I appreciated it very much.

Cordially yours,

Helen S. Williams
