Miss L. Gilpin,

Colorado Springs, Colo.

Dear Miss Gilpin:

This is to advise you that we are short of the following materials on your order. 40 leaves of Japanese vellum for one of the Grant Books, 1 piece of parchment vellum for one book, and 8 sheets of buff Fabriano cover for fly leaves. You seem to have miscalculated the latter. Instead of 4 sheets for each book, you sent only 2. Even the last book for the McCrossins contained only two sheets of this material, unless you intended to use the buff for lining only, and no fly leaf. However, I recall that on the last books which were made up for you, I used it for lining and fly leaves both.

Trusting that you will supply us with the above materials at your earliest convenience so that we may complete your order, I remain

Yours very truly,

S. M. Bring
