

safely. Hope the little pin
did, too. Do you like the
base as indicated in the
drawings?

My health? Better, thank
you - though the arm & leg
have gone back on up once
or twice. Dr Granberry has
a suggestion which may make
a great difference. I'll write
you about it after I've seen
him again after Sept. 1st.

Here comes Elise with her
car to take me to the P.O.
So no more now, dear. Dorothy
is off on a visit or she would
send her love, I'm sure. Mine

Laurie Dear:

Your letter was
most welcome. I'm overjoyed
at your good news about
Alice Craig - also about
Betsy's renovated house.
That's fine!

The reason I haven't yet
seen the proofs you sent
is that Mrs. Ramon is
forwarding out 1st class
mail - & the proofs must
be awaiting me in New York.

to you, & Betsy, & your Dad, & etc. etc.

My plans have changed somewhat, & I now expect to return to New York next Saturday (the 23rd), leaving next day for Boston & Kennebunkport. It seems "indicated," as the doctors say, that I see Shirley & the babies for a few days before returning to N. Y. for good on the 28th. The bust of Ted is practically finished, & I shall make the mold either tomorrow or Wednesday.

The family seems to be delighted with it, & I think myself it is not so worse. The ceiling has a magnificent head, & has been a lamb about peeing. Entirely un-satisfactory - which is rare in a youth of that age, as you know!

From what you say about trying to get in touch with 'Helen Curtis' I take it my drawing arrived
