

STANTON G. SMITH
76 FEDERAL STREET
BRUNSWICK, MAINE

Nov. 21, 1930.

Dearest Dad -

I pass on this nice letter from Aue. She certainly has taken the largest new lease on life of anyone I know. Imagine her putting through such a trip a year ago even. It surely is grand.

I have enjoyed Mary Summers letters & am so impressed with her taking courses in Art. I told Miss Anna Smith & she was thrilled. She has just returned from a tour of the middle west visiting Art Museums in Chicago Cleveland etc. Tell Mary however, to write to her Aunt Aue next time before she does to me. I am more casual about promptness!

Stanton got home last Monday morning & it certainly does seem good to have him.

He has found plenty to do so far &
tomorrow we start riding with Betsy. Dotty
has just a short ride on our return but
Betsy is riding for an hour at a time &
loves it - gets along very nicely -

Dotty loves it too but does not get as
far at posting - looks just like a little monkey
in her green suit & red cap.

I must write to Aune now before it is
time to meet the children -

I hope you are all right - am looking
for a letter Aune said she sent to Brother
to send me.

Best love as ever to you all

Devotedly
Toot.

Stanley's mines in Canada closed
down for winter - Alvin had a
wonderful summer with him at
Christie Lake & now they are in Brunswick.
