me your choice of print
was a good one. Couldn't
make out whether you sent
the best of me, or the best,
but think it must be
the former.

As for Europe - Darling,
I don't see any possible
chance of my going with
you. My working - model
won't be done until April

Laurie Dear.

Your letter just
here. Strikes me you've
been having a pretty
rough time of it. Do
hope the cold really
is better. Sure it wasn't
"flu"? I had a touch
of that a couple of weeks
ago - & beat it out to
South Uxwall just in
time to crawl into bed

+ send for the doctor. Got well
very quickly & am now O.K.
except for a stupid cough
that still hangs on.

Dad had it, too, & never
let us know until it was
'most over. I should have
been down there nursing
him. If not - what are
daughters for? My conscience
is uneasy.

Eliot has been down in
Washington opening a
one-man show there,

and he + Dad are coming up together
today. I'll certainly have a full

house tomorrow night, with the

three Nelsons in town between

a Friday opera (for Frank), + the

Saturday Boston Symphony. So

I have my top-side-high studio
where I can bunk.

About the Guggenheim - dear
me! I thought you sent you

8.
inconvenient - not until. Will
you please have the certificate
sent, not to me here, but
in care of Dad - Library
of Congress. He keeps such
things of mine in his
safe deposit box. I haul
you.

Here comes Jane, my poor
cleaning woman. Been sick
for two weeks, ditto her mother,
ditto her little boy. Can't
pay the rent. Desperate.
Instead of sending a donation
to the unemployed fund I'm
tempted to let charity begin
right here.
I just got Hon. Mention for my

the full size figure - due,
as per contract, October 1st.
Best I can hope for is 2
or 3 weeks in the country
in midsummer. I thought
there was some chance
of Beto's going with you.
Isn't there? Had hoped
there would be.

Poor Helen Stagg. What
a ghastly thing to have
done to one! I do hope
she pulls out of it
all right. My best

the baby at the nursery show. and Chicago. I've from
turned it down! Must make up Dad's bed.

remembrances & heartfelt sympathy when you see her.

Too bad about your house. Wish you didn't have that added strain to worry about. Seems as though your Dad ought to shoulder that responsibility.

The situation among sculptors here (excepting B. P., praise be to God!) is terrible. So many without work. Somebody,

(I guess the Huntington) has given a loan fund to the Sculpture Society to use for working + desperate cases. Fine thing to do, wouldn't it? I don't need it yet - but the time may come —
Meantime, as I've forgotten the exact title of your brand, I've made out this check to you, + will be $\approx$ grateful if you'll attend to the check for me when
