Dear Laura,

I was so disappointed when I returned from Santa Barbara not to find a set of photographs of the production including one of Lili Montracher which Mr. Jones has and which I think is charming. It doesn't look much like me or like I looked in the production but it is rather sweet and as I used to look when I sang and I am sure my family would like to have one.

Let me know what amount to send you and I will forward a check.

I think so often of our lovely summer and think of you all with great affection.

Yours sincerely,

Margaret Carrington
