Dear Miss Gilpin:

I find that we have about enough School Booklets to last until February. We should then have ready a new issue.

I have been going over the present booklet for corrections and changes, and would be glad to have suggestions that you might care to make and also estimates on a new booklet, similar to the one we have, making a few changes in the photographs where better ones are available and where it is indicated by additions of new buildings, etc.

Looking forward with interest to your reply, and with kindest regards to your father, I am,

Very sincerely yours,

A. J. Connell
