

LABORATORY OF ANTHROPOLOGY

INCORPORATED

SANTA FE, NEW MEXICO

24 November, 1932.

Dear Miss Gilpin:

The friend who is working with me here is eager for the pueblo woman and child Christmas cards too. Might we have, between us, one hundred and twenty-five cards? She will take 75, Elizabeth Pitney, Laboratory of Anthropology, Santa Fe, and I will take 50, New Haven Hospital, New Haven, Conn.

You have no idea how we appreciate this. To have lovely cards to send dropped into our laps, so to speak, is a real stroke of luck.

Do hope you will be in this country soon while I am here.

Sincerely,

Stephen D. Abert
