Dear Miss Laura -

I had no idea
that you were photographing
my houses - goats - until your
father told me the other day when
~~you~~ ~~was~~ here. I have waited
all these months for your letter
which never came. So I asked
your father - Even if I am
apparently rotten rude - for all
of which, I am very sorry
for the bad impression I have
made. I am most grateful
to you for your great
Kindness and Generosity and
I thank you a thousand times

for your great kindness.

I told your dear pa pa as soon as he
settled down from the gold rush in
the north to come up and stay with
me this summer - But I have never
heard from him since he left for
Colo. Spr. - Will you use your influence
on him - so he will return very soon.
and I will give him a job of fishing.
If you are coming this way will
you kindly stop in and make us
a real visit - There will be no
danger of finding me not at home
as I haven't the price to go any place.

Your father says your business is
keeping up at high speed - You are truly
lucky to have something to keep your
mind occupied - and from which
an income flows.

Again thanking you for your
wonderful pictures - I try to remain

Sincerely yours

Richard V. Demmon
