

THE SPORTSMAN

Dear Miss Gilpin:

The Sportsman is interested in securing good photographs for publication from time to time.

While the size, shape, and subject matter are almost unlimited, they should have artistic merit, unusual treatment where possible, and a definite sporting appeal. Action pictures are not necessary, though preferable; scenic photographs are desirable when they picture the playgrounds of the sportsman.

We shall be happy to see any prints that you care to submit, remembering that if published the fee paid will be governed by the amount of space allotted to the illustration. The Sportsman is, of course, interested only in first publication rights.

Very truly yours,

David S. Garland Jr.
