

Sept 11/32

Butte Mont.

My dear Laura

I think that I have about closed
one deal consisting of 160 acres that was
Good Land that I located and a lease (yet to be
signed) from the Anaconda C. M. Co. I will have
to go to Missoula tomorrow to see the field
man of the A. M. Co. and file the final papers
then if I am up to well go on to the property
which is about half way between Missoula
and Superior where this is done. I don't know
just what I will do. I have plenty to do & keep
me busy with cold weather. But I am
so wobbly that I fear to undertake much.
Dr Gugg showed me a letter from D. M. Co. asking
about my condition which he said that he
would answer so you will know all or more

Than I do There seems something definitely
wrong for when I lie on my left side I have
those queer attacks and as long as I stay on
my back or right side I am ok. I have had
no letter yet from Francis Cant understand
why he doesnt write to me. I have had
some telegrams but I have no idea whether
he is laid off of his job or only on a short
vacation. I do not want to ask him to
come here for fear that I may interfere
with something that might be more to his
advantage. Beside I do not know just what
there will be to do. If Fran would tell me
something about his affairs I could judge more
better. I have a feeling that I will not do much
good for a while if ever

I have just been hanging on, because I could
not go home with nothing accomplished.
I will most likely start home some time this
week taking it by slow steps. If the weather
is good will most likely go by Dick Dunsen's
and stay there a day or two then home again.
Rawlins will write you just as soon as
I get matters fixed here what I will
do. Should get through by Thursday ~~for~~
And several other things I would like
to look at but can't tell yet whether I
will be up to it. This little trip ^{tomorrow}
will ~~let~~ tell about what I am good
for. I have no idea what R.E. man has
been to see you. I may have said to some
one that we would trade 12.5 for a ranch
but no definite ranch was ever
mentioned.

I have not written for two day thinking
that you would be on the road -
Weather is fine just about like our
September weather. Hope you will get
out to see the Stiggensons. I may be
possible that he will want to come up
here if so I will wait for him. I do
not want to write him until I get
every detail of the ground above mentioned.
Aloha & signed

affectionately
Dad
