Abe Cohen's Exchange,
New York City, N.Y.

Dear Sirs:-

I want a good second hand projection lens that will cover perfectly an 8 x 10 negative for enlargement. A slow lens will do as I use a Cooper Hewit light for enlarging. Will you let me know what you have and at what prices?

I have to turn in on such a purchase a good condition B.&L. 4x5 Tessar and a P.&S. Synthetic Series 6 (about 6" focal length).

Very truly Yours,
