

August 8, 1932.

Mr. Cyrus Boutwell,
Denver, Colo.

Dear Mr. Boutwell:-

I do not know if my father has ever had a talk with you regarding the sale of his furniture. He is away for the greater part of the Summer and I am attending to some of his affairs. Before he left he took a truck load of things up to the Junior League Shop, but to date they have only made one small sale. I enclose a list of the pieces which are there now. I wish very much that you could take them for I feel sure that you could do much better with them. The Tambour desk is a copy of a Metropolitan piece, and is a great buy at this price.

If you wish to go to the Junior League shop and see the things for your self I will have them moved to your shop if you decide to take them. The enclosed list is a duplicate of the things at the League with the exception of one piece ~~said~~ sold and two returned here.

Hoping that I may hear from you at an early date, I am

Very truly yours.
