

May 10, 1932.

The Central Camera Co.,
Chicago, Ill.

Dear Sirs;-

I recently sent you a check for some different papers which I wanted to try out. As I have only received one package I understand that some of them have been discontinued and some you did not have in stock. At this time I have a credit balance with you.

Will you let me know what surfaces of Welling papers you carry and have you tier new paper? Does the rough satin finish come in three grades or only one? What is the price on a half gross of this paper 10 x 12 and 11 x 14?

I would like very much to see two books. As it is impossible for me to see them in the store will you send them out on approval? The 1932 Das Deutsche Lichtbild and The Science & Practice of Photographic Printing, by Snodgrass. Also have you a copy of the 1930 Deutsche Lichtbild? Someone wished me to secure them a copy.

Have you any samples of the various surfaces of the Vitava Opal papers which you could send to me for inspection?

Very truly yours,
