Denver, Colorado,
Denversity

Dear Mrs. Clatworthy:-

Your letter regarding my Yucatan photographs has been received and I will be very pleased to have you exhibit them at any time that you wish. The Laboratory of Anthropology in Santa Fe must surely be through with them by this time as they have been on exhibit there for a month. I am going to Santa Fe next week and can make arrangements to have them shipped to you unless you wish them before that time. There are about twelve of them on mounts size 17 x 22 and the remainder on mounts 14 x 18 inches. They would take a fairly large space to hang them properly. If this would be more than you could manage, the Denver Art Museum will show them, as I had a talk with Miss Evans about them here on Tuesday when she came down for a Central City talk. As Dr. Nusbaum had written to me that he had made the suggestion to you, I feel that you have the first choice if you so wish. Awaiting your further decision, I am most sincerely yours.

you have them if you have sufficient space.
