Mr. Frederic A. Delano,
407 Hibbs, Bldg.
Washington, D.C.

Dear Mr. Delano:-

Last week I was in Santa Fe where I had a talk with Dr. Morley regarding my photographs of Chichen Itza. He has had the whole group of prints on exhibition at the Laboratory of Anthropology in Santa Fe for six weeks. It was Dr. Morley's hope that they could also be shown at the meeting of the Carnegie Institute in December, but he was informed that there would only be room for eight of the prints.

As I feel that the series belongs together I am wondering if you and any others who are particularly interested in Chichen would be interested to see the whole series as far as I have completed it at the present time. If you wish I will gladly send the balance of the set, forty prints, to you so that you and any to whom you care to show them, may see the entire set.

I have them here at the present moment and can mail them on to you if you wish.

Sincerely yours,
