

Feb. 16, 1932.

Mr. Alden S. Donnelly,
Box 776
Midland, Texas.

Dear Mr. Donnelley:-

You doubtless think all sorts of things about me, but delay has followed delay about my lantern slides and the map. I have sent it to two people for suggestions and corrections and also have made a slide of it as it is to see how it looks on the screen.

I am very pleased with the general appearance of it on the screen. It looks very well indeed. There are a good many changes to make, corrections, removals and additions. Wherever the Mountain marks come close to names it causes a little confusion in looking at it. This will be easily remedied. There are several things to add, and some corrections as to the locations of the Pueblos along the Rio Grande. I have it all indicated either on the map in pencil or on the enclosed list, and I believe that it is all clear.

I can make the slide best from the original and there is no need to make a photostat.

I am enclosing a check for \$15.00 which you deserve. Wish I could make it more. Times are bad here as everywhere which have helped to delay me on this work.

I do appreciate the careful work you have done on the map and I hope that the changes will not give you too much trouble.

With best wishes I am

Sincerely yours,
