May 3rd 1932.

Mr. Paul A. Douden,
Curtis Lighting
Denver, Colorado.

Dear Mr. Douden:-

Your letter has come before I had one written to you. I am glad that you like the photographs of the Shove Chapel. Your lighting system surely offers a marvelous variety of effects and has been a great pleasure to work with. A little later I will have other things which you may care to see.

I sent you the enlargement of the Chapel on approval. Thought perhaps you might like it for your office.

The enclosed letter was put in with your letter to me by mistake I judge.

Very truly yours,
