

Oct. 22, 1932.

Mr. Arthur A. Fisher,
Denver National Bank Bldg.
Denver, Colo.

Dear Arthur Fisher,

Thank you for your letter and the order on the photographs. I am glad indeed that you like them. I am not yet allowed to do the front of the house until further planting is done. The stable I have done from the point you mention but it was not a success owing to the wrong time of day and lack of clouds in a large area of sky. I shall have to await a proper day for it.

In the meantime I have to go to Santa Fe to make some portraits, and am planning to leave early next week. I hope ten days delay will not be too great on these prints for you. I will in any event have to order the paper for them, if I do them on 11 x 14 as all your others have been done.

I received Mrs. Fisher's note saying that you were off on a camping trip and I wished that I had been with you. My nose has been very much to the grindstone. Dad has been home for

a week and feels that he has had a successful summer but one that will not bear fruit for a while yet.

Soon after my return from the Southwest I will be in Denver for some work and shall surely see you all then. In the mean time my Yucatan prints will be shown either at the University or the Museum and I hope that you will be able to find the time for a glance at them. They have been on display at the Laboratory in Santa Fe for a month.

With the best of wishes to you all, I am

Most sincerely yours,

Wm. D. Hoopes
