

May 17, 1932.

Haanstad's Camera Shop,
404 Sixteenth St.,
Denver, Colorado.

Dear Mr. Haanstad:-

Will you please send me the
following:-

3dz 8x10 Defender Velour Black "J"
white Plat. Luster, D.W.
3dz 11x14 same.
4oz Adural.

I am recently back from a very unexpected trip to Yucatan to photograph the ruins at Chichen Itza. Have used a 5x7 camera for the first time and will be doing some enlarging. I have a new excellent developer formula which calls for Adural And I want the particular grade of Defender mentioned above. Will be up before long and will bring some prints along. I went off on this trip just when the movie stunt was to take place! but I guess I'll be doing it later.

Very truly yours,
