

May 4, 1932.

Mr. Edgar C. McMechen,
4 The Colorado Asso.,
Denver, Colorado.

Dear Mr. McMechen:-

I am wondering if you have had any word from the National Geographic Magazine regarding the photographs. To date I have not heard from them at all, and I am anxious to know what their decisions were as there are several of the photographs that I want to place elsewhere if they are not going to use them.

I am just home from a very exciting trip to Yucatan, to photograph the ruins at Chichen Itza. I went quite unexpectedly with the group from the Fountain Valley School. When you come down again I will have a lot of prints to show you.

As yet I have not seen the current issue of Nature Magazine, I understand that the Colorado number is out. Will get a copy to-morrow.

My present state of finances need re-embursing so that I hope the Geographic will have a check for me soon. The furniture business is very sad just now, and I must keep the photographs going.

With best wishes, I am

Very truly yours
