Santa Fe, N.M.

Dear Jess:-

I quite appreciate what a busy person you are and I do not want you to feel rushed over the slide matter. The lecture can wait another couple of weeks without hurting anything. The one thing I do want is a definite decision on the order of the slides as I cannot mount any until this decision is reached. I enclose herewith a list of the different groups. Will you just check it over and send it back? You will note that I have put Mesa Verde further down the list than previously. I am anxious now to have the first section in chronological order and I turn to you for this. This I trust will only take a few moments of your time.

The shop (my Dad's) is at a standstill and he has gone off to investigate a piece of placer ground up in Montana. Just when he will be back I do not know, I presume in a couple of weeks.

The best of wishes to all,
Most sincerely yours,
