

Sept 17, 1932.

Mrs. Verner Z. Reed,
765 Circle Drive,
Denver, Colorado.

My dear Mrs. Reed:-

I am more sorry than I can say that there has been such a long delay in sending you the proofs. I was ill for the better part of a week which is the reason.

I regret greatly that I had such a short time to work with the children. Adrian was exceedingly shy and it took more than half of time to make friends with him. I hope that you will find a few possibilities among these proofs, and I sincerely hope that next summer I may have the opportunity to work as I usually do with children; spending the greater part of the day with them, playing with them and working whenever the opportune moment arrives. I find this the only way to achieve spontaneous results. Also I like to work in different settings, both indoors and out giving you a greater selection. There are a few of these that will finish satisfactorily. The paper I use is a genuine platinum paper made special for two other photographers and myself in England. Its quality is very beautiful.

The prices on these finished prints are as follows:-

The sitting including your choice of any three finished prints

\$35.00

Six prints

60.00

Twelve prints

100.00

I can deliver your order within a week, and I hope that you will find some of them to your liking.

Sincerely yours,
